

ADDICTION

What's tearing at your heart
Beating on your soul
Is the lady dancing
Is she ready for the asking to go
Down to the tavern where the hip people go
Where there's no way out only one way in
You enter with conviction
But there's only one reason
Addiction
Addiction
Addiction

You can't say no
Hey you don't want to say no
You're young and restless and ready to go
Into the night to oblivion
Where there's no way out only one way in
You're on top of the world
But there's only one reason
Addiction
Addiction
Addiction

No one cares about what you do you can't see friends helping you there's no way out
Only one way in
Addiction

ONLY WHEN I'M WITH YOU

Love

Always broke me down

Till you came

You came and spun me round

Only when I'm with you

Only when I'm with you

Does this world start to turn

Two

For the first time are as one

And we've only just begun

Only when I'm with you

Only when I'm with you

Does this world start to turn

Yes

We are on our way

Doesn't matter what they say

For we are the future

We are the future

I just love to love you

Time

Time to open up our hearts

It's the very first place to start

Only when I'm with you

Only when I'm with you

Does this world start to turn

WINNING

I find pleasure in winning
Sensuous enjoyment to be pursued
Pleasure in winning
Overtaking
Giving only when necessary to love
To play to you
Winning means everything

I'm sorry I'm sorry
But you see this cold and obvious war was my inheritance
Winning means everything

I find pleasure in winning
Sensuous enjoyment to be pursued
In love
In play
In you

PRINCE OF DARKNESS

Prince of darkness sweet prince beautiful and fair
Oh how you endure unaffected by the passing of seasons
You are young strong
An untimely one

Prince of darkness beautiful and fair
Keeper of what is and what forever will be
Hold me in your arms
Hold me in your arms teach me
Teach me please
Help me grow old
Teach me and hold me
Hold me in your god blessed arms

Prince of darkness oh sweet prince
Radiant without compare
Oh how you endure unaffected by the passing of seasons
You are young strong
An untimely one
Keeper of what is and what forever will be
Radiant without compare
Prince of darkness oh sweet prince

WHEN YOU MAKE UP YOUR MIND

When you make up your mind I'm usually in trouble
Maybe I've refused you maybe I haven't
When you make up your mind you take away my love
Throw out affection and all faith from above

Ooh ooh it's true can't take much more
Baby next time I'm heading straight for the door
When you make up your mind and take away my love
You throw out everything I've been dreaming of

When you make up your mind there's no getting through to you
No chance to reason
No chance to compromise
What am I doing with you

Yes when you make up your mind I'm usually in trouble
Maybe I've offended you maybe I haven't
But when you make up your mind and take away my love
You throw out everything I've been dreaming of

TRY TO COME TOGETHER

Canons thunder in the distance
Warning what's gonna come
Crashing down on our country
Come pounding like war drums

Try to come together
Time to come together now

Holes in your confidence
Holes in your hopes and dreams
Holes in your heart are bleeding out
At the seams

Try to come together
Try to come together
Time to come together now
In this land of the free
Yes we (the people)
Must all come together now

Lets meet in the middle
In the halls and in the streets
Faith is our family
Can't be broken down or beat

So keep on moving forward
Till the bells of liberty rings
Let our loud heavy hearts beat as one
As we sing

In this land of the free
Yes we (the people)

Must try to come together
Try to come together
Time to come together now
In this land of the free
Yes we (the people)
Must all come together now

RUN AROUND TOWN

I see people running around from dusk till dawn
They run a disciplined straight and narrow line
Where they begin depends on what kind of state they're in
But they'll be back where they started before the day is through

Sun sets against the oceans horizon
Freeways fill at the break of day
Continuous motion smooth and pleasing
You'll be back where you started before the day is through

This is a run around town
Run run run around town

There's no getting lost only dizzy
And they have cures oh do they have cures
Continuous motion in a circular city
That what is never changes

This run around town
Run run run around town

SPEAK YOUR MIND

Generation totally lost
Kill their future over drugs they bought
They take up dealing then go buy a gun
They're not the type to run

Speak out
Speak your mind
Bring your voice to the firing line
Speak out
Speak your mind

Kiss and touch you dabble in danger
You may die at the hands of a stranger
Don't try to warn us tell us what's right
We're not the type to run from dark highways at night

Speak out
Speak your mind
Bring your voice to the firing line
Reach out
Speak your mind
To many people just killing time

See our cities dying fast
Lets come together and stop reliving the past
We got the numbers
We can't be silent
There's no solution in crime and the need to be violent

Speak out
Speak your mind
Bring your voice to the firing line reach out
Speak your mind
To many people just killing time

Speak out
Speak your mind

FINE CHINA

You are tender to my touch
Maybe I need you just a little too much
Say you love me just one more time
And I will let you go just knowing your mine

Once I was the only one
Once when our love had just begun once I was the only one
And you needed me now you're treating me like fine china
Yea you're treating me like fine china
Made out of glass
Beautiful but not meant to last

Out of the love we made something
Not bought or to be appraised
Ice old you sold out
Now I'm wondering what you were all about

Once I was the only one
Once when our love had just begun
Once I was the only when
And you needed me now you're treating me like
Fine china
Yea you're treating me like
Fine china
Made out of glass
Beautiful but not meant to last

Broken
Our love was shattered
Unspoken
My heart is now on display like
Fine china
Fragile and afraid on my own beautiful like
Fine china

STANDING ON THE CORNER

Standing on the corner
Standing there I see
People filled with hatred
Staring back at me

Lonely days
Lonely nights
Standing on the corner

Standing on the corner
Standing there I see
More than meets the eye
A price you pay for peace
Lonely days
Lonely nights
Standing on the corner
Standing on the corner

I see pain
I see suffering
No one listens to my call

Standing on the corner
I say what do you see
I see pain
I see suffering
I see home
Across the boardwalk

MOTION

Call it motion yea take a chance
Motivating action catch it if you can
Unlike a still life picture that one places in a frame
I'm in the film that's rolling never to stay the same

Motion
Life in motion
Changing patterns all the time

The sun will rise to start the rhythm of another day
If you're like me before you know you're dancing down the freeway
Motion
Life in motion
Changing patterns all the time
Motion
Life in motion
I got motion on my mind

People getting to the top for their emotion never stops
Reaching places different faces it's a fast pace rat race
Motion
Life in motion
Changing patterns all the time
Motion
Life in motion
I got motion on my mind

FIRE AND WATER

Dazed bending toward the light
Black against the fog and snow is
Where I find myself I swear night after night
Walking the streets of paradise
You can't control yourself
You are here and
You are not
You can't control yourself
You are here and
You are not

I rape my heart with what I say and
When I'm finished and all worn out
My stolen heart in a drunken shout cries
Wave of fire cover this place
Oh lord with fire and water

Far beneath the smoky waste
I see my eloquence get rude
While the rude in me acquires taste
You can't control yourself
You are here and
You are not
You can't control yourself
Oh lord
Fire and water

Still the need
To celebrate beauty
The day it disappears will be the day I die

Walking the streets of paradise
I am walking the streets of paradise
You can't control yourself
You are here and you are not you can't control
Fire and water
Fire and water
I rape my heart with what I say
Fire and water

HALFWAY DOWN

Halfway down my staircase is a certain spot
It's not at the bottom it's not at the top
Just where I seem to go when I want to be left alone
I go to this staircase

I am sitting eyes closed thinking
I'm not up and I'm not down
I am sitting eyes closed thinking
Nowhere halfway down

Since I was very young I was hard to please
Never saw life as right from wrong but hey that was me
People always grabbing for something
They just like grabbing laughing that's it

I am sitting eyes closed thinking
I'm not up and I'm not down
I am sitting eyes closed thinking nowhere
Halfway down

Funny thought running around my head
I'm not really anywhere
Just somewhere else instead

No place quite like it
Just where I seem to go when I want to be left alone
Time and time again

I am sitting eyes closed thinking
I'm not up and I'm not down
I am sitting eyes closed thinking
Nowhere
Halfway down

IT'S GREAT TO BE ALIVE

I'm a singer without a band
I'm a song without a voice
I'm in love without a girl
And I live in the city with mercy and pity
Just trying to make it through
And I do
Cause tomorrow's another day
And with a little faith in what the wise ones say
That even god makes us pay our dues
Listen to the news
Listen to the blues

And say hey it's great to be alive
Yes it's great to be alive
Say hey hey hey it's great to be alive
Even though some of us will die with our music still inside

There's a farmer without a farm
There's a mother without a child
There's a child without a friend
And they'll go on just the same
Finding someone else to blame
And that helps them to get through
And they do
Cause tomorrow's another day
And with a little faith in what the wise ones say
That even god makes us pay our dues
Listen to the news
Listen to the blues

And say hey it's great to be alive
Yes it's great to be alive
Say hey hey hey it's great to be alive
Even though some of us will die with our music still inside

I'm alone without a land
I'm a government without a plan
In a world where there is no peace
Still tomorrow's another day
And with a little faith in what the wise ones say
That even god makes us pay our dues
Listen to the news
Listen to the blues

And say hey it's great to be alive yes it's great to be alive
Just say hey hey hey it's great to be alive
Even though some of us will die with our music still inside

LUCKY DAY

Give her your heart but don't give her your time
Reach in your pocket for that greedy dime
That you hate to part with cause times are rough
Got to make a living so you gotta stay tough

You don't even see how silly you are as you jump onto the stage
It's good for you it's good for the cause it's good for the people you s a y
But used to write now you're killing time and it's eating up your youth
But it's OK they got their eyes on you
It's your lucky day

Better be careful when you cast out the devil
That you don't cast out the best in you
All right lets roll the dice any day you're lucky
Is your lucky day

Everyone's hatred in the things they love are the only things that last
I hear you say as you beat back the bush back to Vaseline flats
And your brothers and sisters don't understand
Life's dealt you a wicked hand but
It's your lucky day

Better be careful when you cast out the devil
That you don't cast out the best in you
All right lets roll the dice any day you're lucky
Is your lucky day

Always in a hurray trying to get someplace and you tell me you're neve scared
I hope to god when you get to that place that you recognize you are there
And your brothers and sisters don't understand
Life's dealt you a wicked hand but
It's your lucky day
It's OK
It's your lucky day

PREGNANT WOMAN IN PUMPS

His name is Joe Baker
He was a little faker
Joe and Wendy praised the lord
But he tried to make the jump
Poor old girl she took the lumps
That pregnant woman in pumps

Now there's Billy Bart
Who lined up at the start
But his race was already lost
He tried to make the jump
Poor old girl she took the lumps
That pregnant woman in pumps

Now we don't know about the pope
Or the average man who copes
With the daily trials of the day
But if they want to make the jump
There'll be a girl who'll take the lumps
Yes she's that pregnant woman in pumps

Well there's no one who's to blame
Can't say I wouldn't do the same
Let he without sin cast the first stone
Better be careful when you jump
Love the girl who takes the lumps
That pregnant woman in pumps

NO ROOM ON THE RADIO

Switched on my favorite station
Strange fascination
Living with the things that I hate
To keep what I love a big mistake

No room on the radio
Too many songs for me to steal the show
No room on the radio
Singing high singing low

Pay through the nose for short-lived shows
Tell them everything - everything they know
Come in come out of the rain
Same old story again and again

No room on the radio
Too many songs for me to steal the show
No room on the radio
Singing high singing low
There's no room on the radio

Love someone then let them go winter waters
Winter waters turn to snow

No room on the radio
Too many songs for me to steal the show
No room on the radio
Singing high singing low
There's no room on the radio

RIDE ON THE MIDNIGHT HOUR

Take my hand girl hold it tight don't let it go
Closer let me kiss away those childish fears you've known

Take a ride on the midnight hour with me
Two together tonight will be free
Ride the midnight hour with me

There is no reason space or time where **we will** go
All is what you feel from heaven and below
Let your freedom run morning soon will come
All is over girl so quickly it's insane

Take a ride on the midnight hour with me
Two together tonight will be free

Close your eyes
Open your heart

Ride the midnight hour with me
Two together tonight will be free

SHOTGUN

Well I'm feeling like I always do at the end of a long week
Of putting in the hours trying just to make ends meet
All I want to do is hurt you and destroy all I want to do is die

Shotgun I'm loaded and I'm pointed right at you
My triggers feeling mean and awfully ready too
Shotgun I'm loaded and I'm not having fun
You better run when I fetch my loaded shotgun

Well I pity all the workers whose life is spent in vain
They plow the fields America flooded by the rains
All they want to do is hurt you and destroy
All the goodness in the world

Shotgun I'm loaded and I'm pointed right at you
My triggers feeling mean and awfully ready too
Shotgun I'm loaded and I'm not having fun
You better run when I fetch my loaded shotgun

To all of you I might offend
Kind ladies and gentlemen
I'm not here to make amends

Well my visions in its final phase could shatter like a glass
And in the end I'll come to know how sadness came to pass
All I want to do is hurt you and destroy
All the goodness in the world

Shotgun I'm loaded and I'm pointed right a you
My triggers feeling mean and awfully ready too
Shotgun I'm loaded and I'm not just having fun
You better run when I get loaded
Better lock up all your children
Shotgun

MOMENT OF INSIGHT

Where
To turn when caught in the middle of

Doubt
The reason for the existence of

Deep
Inside my mind
For a moment of insight

With
A whisper flows every reason to

Be
Enlightened just like the rest of you

Deep
Inside my mind
For a moment of insight

JULIET

She'll bites and scratch like an angry cat
You never know where this girl's at

Juliet
Sweet Juliet
A pretty name
I wish to forget

She has no taste and loves to disagree
This girl lies and cheats
Like a gambling thief
Sweet Juliet
A pretty name I wish to forget

Wish you could depend on a pretty name
Cause my life is filled with pretty names
But you can't depend on a pretty name
That's why I wish to forget
Sweet Juliet

She's got a heart of stone cold as ice
Her tongue is sharp and ready to slice

Juliet
Sweet Juliet
A pretty name I wish to forget
And my life is filled with Juliet's
Pretty names I wish to forget

THE WAVE

You find peace in the ones you love most
When they're gone
When they're gone
That cold hollow feelin
Comes and goes like waves

When the waves come in
And you don't know where you're going or where you've been
You find yourself remembrin

He may come in hard, fast and mean
Coming from a storm out at sea
Or she may come in soft, slow and cool
Leavin you wondering when the next storms gonna be

When the waves come in
And you don't know where you're going or where you've been
You find yourself remembein
When the waves come in

When the waves come in
You find yourself remembering
Who made you what you are today

You find peace
In the ones you love most
When they're gone
When the waves come in

DON'T HURT YOURSELF

Don't hurt yourself there's too much on the line
If you think you're OK then buddy you must be blind
Take a look around you now
All your friends they don't know how
And in the mirror you face a cloud
Don't hurt yourself

Don't hurt yourself when you know who to call
Take it off the shelf then throw it off the
wall
Don't walk away from it
Don't cancel out on it
And don't try to hide it
Don't hurt yourself
There's too much on the line

The past is behind you
In front all unknown
And it's your best friend with a gun
On the phone
He needs something for the pain
Frightened of the wind and rain
He's got no soul
He's got no brain
If he could only go home again

Don't walk away from it
Don't cancel out on it
And don't try to hide it
Don't hurt yourself
There's too much on the line

LOVE AS YOU LIKE IT

Cool winds and a cinnamon sky
Spun from a dream fire rages in her eyes
Keeping it easy
Staying in time

Hours later on a naked coast
Soothed in a smile now she knows what she likes most
Keeping it easy
Staying in time

Love as you
Love as you like it
Love as you
Love as you like it

WHAT'S GOING ON

Racing through the twilight of my mind
Thoughts of her in venture
Facing me like weapons of the times
There's fear will I ever know
What's going on

Escaping to the future go the days
Saved for her this morning
Driving down the middle of the road
Where no one wants to go
What's going on

Mystery girl who keeps me
Silent as the wind tangles her hair
Suddenly I love her

Dancing through the hallways of the house
Built for her from memory
Reminding me like pictures of the past
The fears will I ever know
What's going on

Mystery girl who keeps me you
Tell me
What's going on

DON'T TAKE IT PERSONALLY

He was told he would have to go and fight this War
Leave his home
His job
His girl two years or more

No place he could turn
They said don't take it personally
Ah don't take it
Don't take it personally

So he trained in the field
Of a computer man
He got there and they put
Bombs and guns in his hands

What moves blast and burn
Then they said don't take it personally
Ah don't take it
Don't take it personally

He had no home when he arrived
At the airport back home
Only his immediate family had shown

To greet him after tour
And they said don't take it personally
Ah don't take it
Don't take it personally

SOMETHINGS GOTTA GIVE

Can't sleep at night
And I'm always tired during the day
Give me a line on Kentucky Derby day
Gotta a nickel in my pocket
Gonna let it ride
My whole life
Is living a slow suicide

I say something, somethings
Somethings gotta give
I'm trying but can't find a lick
Something's gotta give
To save my soul

I know life can kill you
Just ask Marilyn Monroe
If you can't dig her up
Just rent one of her videos
Give me a light
Oh give me a drink
Stop this world
I need some time to think

I say something somethings
Somethings gotta give
I'm trying but can't find a lick
Something's gotta give
To save my soul

Been around for so long
They say boy just keep writing those hit songs

Working in a place that don't even know my name
If they did it wouldn't matter cause I hate them just the same

So just give me my money
Gotta pay the rent
Just trying to keep a roof over my head

I say something, somethings
Somethings gotta give
I'm trying but can't find a lick
Something's gotta give
To save my soul

RODE HARD AND HUNG UP WET

Think this is a fast town living on the streets
Going out with Bob to get a bite to eat
She's got no money Bob plays guitar
Together they can make it but they won't get far

And you wonder what's gone wrong
You've been rode hard for to long

Can't find her sex drive in the mezzanine
Leaning on each other inside a magazine
She knows what he thinks
He knows what she thinks
Never gonna happen when you're living like a has been

And you wonder what's gone wrong
You've been rode hard for to long it's so clear it ain't obvious yet
You've been rode hard and hung up wet

Feel like a heavyweight lying on your back
Thinking of the people that hold you back
You've got ambition
You follow religion
You want to be remembered but you can't get delivered

And you wonder what's gone wrong
You've been rode hard for to long
It's so clear it ain't obvious yet
You've been rode hard
Rode hard and hung up wet

VIOLENCE

When you think it's all over
Yea I mean when you think you've been to hell and back jack
Is it really, really really over
Is it safe, safer than where you're going
Or where you are now

Daylight turns to violence
Daylight turns to violence

Just when you've got
Life in the palm of your hand
Could be a friend
Or a killer who wants to destroy you
And everything, everything you do

Daylight turns to violence
Daylight turns to violence
Daylight turns to violence
When daylight turns to violence

Yea you can run
But you can't hide

That's why I'm running from daylight
Not running from the nightlight
Daylight turns to violence
Daylight turns to violence

IT HURTS ME

It hurts me to see you lonely
It hurts me to see you confused
It hurts when I ask and there's nothing wrong
I've done all I can to reach you
But there is no halfway anymore
The city shattered your spirit
And it hurts me

We worked hard to bring us together
Such is the price of these troubled times
Now I'm afraid of the distance between us
And I'm short on dreams and sympathy
And the plans you make
Are nothing but childish fantasies

I should have been just your lover
Maybe just a friend
But all my should have made no difference
I've done all I can to reach you
I can't stand the pain anymore
Our love is just a memory
And it hurts me

LIKE SO MANY TIMES BEFORE

You touched me with your magnificence
Reached in and claimed my innocence
Now who's gonna put back the pieces
Who's gonna put back the pieces

So I waited so I waited restless
Like so many times before

Listlessly dancing to your beckon call
You were all of my everything and more
Now who's gonna put back the pieces
Who's gonna find my heart
I am lost in the dark so I waited

So I waited so I waited restless
Like so many times before

TOUCH SENSITIVE

I'm a touch sensitive
Guy who can't stand stiff reaction
Need a touch sensitive
Girl to give me satisfaction

Touch sensitive
Touch sensitive

A sensitive type is the best
The harder you touch the more you get

Touch sensitive
Touch sensitive

Safe in my arms warm your jets
Switch on girl computers get the rest

Outer space
Human race
Looking to the stars for a better place to live

Touch sensitive
Touch sensitive
Touch sensitive
Touch sensitive

SOONER OR LATER

Sooner or later
You will have your rose garden
Sooner or later
I will have one woman

Where are all the roses now
Where is all the love

Sooner or later
There will be peace on earth
Children will walk safely home from school
Where are all the children now
Where is all the peace

I get on my knees
On my knees and pray

Sooner or later
I will have a home again
When I'll think of silly idle things to do

Do you ever hear what I say
When I get on my knees
My knees and pray

Sooner or later
There will be peace on earth

REMEMBER TO REMEMBER

Lord knows I haven't had a dream
Even though I've been asleep what seems
Seems like forever, forever and a day
Sometimes I feel I was born yesterday

Remember to remember
Remember to remember

So caught up just trying to make a living
Everybody's taking and nobody's giving
What does it matter what does it mean
If you forget just where you've been

Remember to remember
Remember to remember

Sometimes the simple things in life are lost
Caught up in the madness at a horrible cost
No room for friendship no room for love
No room for help-help from above

Remember to remember
Remember to remember
Remember to remember

YOU WERE THERE (From the Beginning)

Lying under this summer sky
Thinking of another place and time
When the plans I had were fading
Day and nights out of my mind

I couldn't buy a romance
The passion I burned was wicked
Tried to hold back an ocean
With a whisper and a rhyme

You were there from the beginning
You were there from the start
Yes you were there from the beginning
There from the start

Remembering those lost emotions
Fooled by the roads of freedom
Oh my heart just had to be broken
Before I called it mine

And you were there from the beginning
You were there from the start
Yes you were there from the beginning
There from the start
To keep it all in focus
To keep me going strong
Where would I be without you
True love was always
There from the beginning

HOT NIGHT IN THE CITY

This is a story about a girl named Jane
Predictable like this song
You heard it before now you'll hear it again
And you'll dig exactly what went wrong

Standing there like a gypsy
Queen dress up to her neck
I knew right then she had a lot of guts
And she was pretty on top of it

Before I knew it was 3 AM and she was sitting on my lap
Jane I said this one's meant to last

Hot night in the city
Gonna be a hot night with me girl
Hot night in the city
So stay hot for me girl

You should have heard my mates asking where did we meet
Does she got any friends
I said no I gotta go
My baby and me we got plans

Once again on the carousel never thought she'd fall in love
But that's OK cause I'll tell you what I'm thinking of

Hot night in the city
Gonna be a hot night with me girl
Hot night in the city
So stay hot for me girl

Just three weeks I said just three weeks
Colder than a frozen stone
Frozen stiff then lickity split
Her love found a new home

Guess she started getting close
Couldn't handle what was inside
Baby I never begged and baby I never lied
When I said

It's gonna be a hot night in the city
Gonna be a hot night with me girl
Hot night in the city
So stay hot for me girl
Hot night

THE ROBBERY

She came to me one hot summer dawn
Me and my women we fought the law
No one to count on not even ourselves
And we made love and we had love and nothings ever felt

Came the robbery
Sweet dreams of it all
She came to the robbery

We walked away with a suitcase filled
With all this money only two killed
We had the music up real loud
Started to see some rain clouds

Came the robbery
Sweet dreams of it all
She came to the robbery
Fought the law
Baby you and me

Still we both don't know where we stand
With blood and water and guns in our hands
We pulled each other's face off the floor
And we had love and we made love
And still both needed more

Came the robbery
Sweet dreams of it all
She came to the robbery
Fell in love
With the robbery

LITTLE BABE

Little babe crawl little babe crawl
Little babe let me help you to stand tall
Little babe crawl

Little babe give me a sound
Little babe give me a sound
Little babe you make the world go round
Little babe give me a sound

Little babe run little babe run
Little babe want to see you have fun
Little babe run

Little babe live little babe live
Little babe learn
What you have to give for love
Little babe love
Little babe live

LOOKS LIKE RAIN

Now when everything looks right
And you feel young and game
To push yourself cause no one else
Sees the seasons change

And it looks like rain
Nothing but rain child
Yes it looks like rain

Hear the rhythm of the rain
Think what you've been through
A time of comfort cold and thunder
Start of something new

And it looks like rain
Nothing but rain child
Yes it looks like rain

Rain that falls on all your crops
On all your heads and your rooftops
It's rain that washes out the city streets
And it smells so sweet

Richman poorman
Girl and woman
Live the life you want
Drugs and thugs snails and slugs
They're all praying to the god of love

Shake my hand and say farewell
And have a beer on me and tell
Everyone when you were young
Waiting for the seasons to change

And it looks like rain
Nothing but rain child
Yes it looks like rain

MY ONE AND ONLY YOU

You say yes I say no
My one and only you
You say stop I say go
My one and only you

Hey hey
My my
My one and only
Hey hey
My my
My one and only you

How the echo of foolish love fades with you
Alone in Paris reminding myself
Of you know who

Hey hey
My my
My one and only you

You get up I get down
My one and only you
You get lost
I get found
My one and only you

It's not the way you dress
Or the color of your hair
Unlike all the rest to me
It's everything you do

Hey hey
My my
My one and only you

You say yes I say no
My one and only you
You say stop I say go
My one and only you

IN AND OUT OF LOVE

My life is a series of passion games
A constant falling in and out of love
In and out of love
That changing panorama of affection

In and out of love
In and out of love
I will fall

Since I remember with all my possessions
Once the fondness wore they were gone
Objects desires no matter how small
In and out of love with them all

In and out of love
In and out of love I will fall
In and out
In and out of love

ON YOUR SIDE

Been a traveller all my life never tried to hide
What I knew about myself from you
When you asked how I felt I always tried to give
From the heart you'll see the truth in my eyes
I'm on your side

Like a fighter can't stand to lose and we have disagreed
On the way we chose to vent our points of view
Yes you say it's all the same and I'm the one who tries to change
But what I did was bring love to your life

I'm on your side girl
Sometimes hard to tell
I'm on your side girl
And now you say farewell
I'm on your side
Yes you know right or wrong
I'm on your side
And wish you well

There's one answer in my life never tried to find
Cause I dream one day it will come from you
But you say it's all the same and it's me that is to blame
For what I did was bring love to your life

I'm on your side girl
Sometimes hard to tell
I'm on your side girl
And now you say farewell
I'm on your side
Yes you know right or wrong
I'm on your side
And wish you well

I'm on your side
Hope you know right or wrong I'm on your side
And wish you well

LOVER IN DISGUISE

If you love another what do I see in your eyes
You turn away but you can't hide
Hot and empty nights unsatisfied let me be your
Lover in disguise

Listen to your friends as them what's right
But if you listen now we can save some time
Tomorrow at this address number five
Let me be your
Lover in disguise

If what I'm saying isn't true
Why haven't you slapped me
I've been wrong before
Or perhaps you are completely unaware

If you love another what do I see in your eyes
You turn away something you can't hide
Tomorrow at this address number five
The fact you fall asleep unsatisfied
Now that you have nothing more to hide
Let me be your
Lover in disguise

PROTECT YOUR SANITY

A cloudless day for a month of rain
Sure doesn't seem such a fair exchange
And we'll go on like yesterday
Dreams of a lasting world

Women who love to be taken down
Can't be a man become a clown
And still the winds rake the leaves
While you regain consciousness
Are you awake
Let me see you smile

Protect your sanity
Protect your sanity
Let me see you smile

Rage in the east sets in the west
Native rhythms against her chest
And we'll dance to tomorrow's songs
Of hope and intelligence
Are you awake
Let me see you smile

Protect your sanity
Protect your sanity
Let me see you smile

Lips will move but not to speak
Silent passion screaming weak
And still the waves slap the shores
While oysters turn to pearls
Are you awake
Let me see you smile

Protect your sanity
Protect your sanity
Let me see you smile

A MANS GOTTA DO WHAT HE'S GOTTA DO

Even when he knows you love him and he loves you too
A man's gotta do what he's gotta do
You try to change him or rearrange him
Or tell him what to do
That's when he'll be leaving you

He may have money a lot of honey and always thinks of you
Still a man's gotta do what he's gotta do
You try to cut him or tie him down with your love lasso
That's when he'll be leaving you

So in the shallow water you will be together
And let nothing slip away till it slips away

Guided by a blinding light
We followed each other into the night
And it all seemed so right

Even when he knows you love him and he loves you too
Still a man's gotta do what he's gotta do
What he's gotta do

HOW CAN YOU BUY THE SKY

How can you buy the sky
How can you own the land
This idea is so strange to me
Will these shores and forest not be here when I am gone
Yes how can you buy the sky

Perfume flowers our sisters
The bear and eagle our brothers
Each reflecting in dark waters of our father's father
In every shining needle
In every mist and meadow
Preserve them for your children's winters summer spring and fall
Love them as god loves us all
Yes how can you buy the sky

How can I say it will always be blue
How can I say it will always be there for you
Yes how can you buy the sky

For if we sell the sky
Remember the air is precious
It shares its spirit with the wind
That gave our land breath to begin
Hold in your mind the memory of this land
As you received it
Tell me

How can you buy the sky
How can you buy the sky

THICK AND THIN

Sometimes I know you feel you don't have a friend
In the world to talk to one who understands
And cares enough to listen to what you have to say
You turn to me and I look the other way

Shine a light on everything you can
Dream on every chance you can
We're all just trying to get through
The thick and thin

Oh what I wouldn't give to see everything go right
When I can wake to find you lying safely by my side
And knowing that we are a team and I'm the only one
Still you never know what you've lost till it's gone

Shine a light on everything you can
Dream on every chance you can
We're all just trying to get through
The thick and thin
Once again

Holding you real close to me
Thinking of a family
Buy a house in Hollywood
In the hills we can make it we can make it good

Where do I fit you love to ask am I just a good time
Or just someone to stroke your feathers until you can fly
Yes you talk about love and liberty and moving in
But there are truths in lies if you hear enough of them

Shine a light on everything you can
Dream on every chance you can
We're all just trying to get through
The thick and thin
Once again

TEMPORARILY YOURS

We close our eyes like to pretend
Our golden rainbow never ends
Just disappears across the shore
Temporarily yours

Temporarily hoping
Temporarily sure
Temporarily loving forever
Temporarily yours

When we see things we dream about
They'll come true without a doubt
We smile and always there's a cure
Temporally yours

Temporarily hoping
Temporarily sure
Temporarily loving forever
Temporarily yours

BREAKAWAY

Running for the title as the fastest man alive
Got to be the first to cross the finish line
But you can't get started and you're having no fun
Feeling dangerous as a loaded gun

Breakaway
Breakaway
When your heart beats with emotion to
Breakaway

All juiced up and nowhere to go
Froze to the wheel cause you just don't know
Standing for nothing
Falling for anything

Nothing is easy
Living life day by day

Breakaway
Breakaway
When your heart beats with emotion to
Breakaway
Just another minute could be to late
When your heart beats with emotion
Breakaway

I'm coming for you now coming for you now
I'm gunning for you now gunning for you now
Oh baby just for you

Breakaway
Breakaway
When your heart beats with emotion to
Breakaway
Just another minute could be to late
When your heart beats with emotion
Breakaway

CAN THIS BE ME

The changes in my life challenge my decisions
And most of my dreams have faded away
With some guiding love through this fog and haze
Waiting for the sun to shine, shine, shine on these strange days

Can this be me
Can this be me
Won't you throw me a lifeline
Can this be me
Going down for the third time
Can this be me

I'm not seeking answers
Answers can't be trusted
Just a point of contact
So I can save myself

Can this be me
Can this be me
Won't you throw me a lifeline
Can this be me
Going down for the third time
Can this be me

Or just a passing traveler who will soon be gone
Gone stone gone
Gone who will soon be
Can this be
Can this be me

Won't you throw me a lifeline
Can this be me
Going down for the third time
Can this be me

SLOW DANCER

Slow dancer slow dancer
Dancing so divine
For you refine the art of dancing slow
In my arms
Slow dancer
Romancer
Close against the charm that invites you
Don't let it bite you

I will whisper pretty phrases
You long to hear
Teasing and holding you close without fear
Listen very carefully
I feel you should know
Once on the dance floor
I'll never let you go

Slow dancer slow dancer
Far beyond the beat
Unafraid to meet the motion inside you
It's our turn to dance
Listen very carefully
I feel you should know
Once on the dance floor
I'll never let you go
Slow dancer
Slow dancer

LIMBO

You know your way but are afraid
So you think and think and think your life away
Why do you come to me the answers aren't
Written down in my little black book
Hard believing you're fighting child
The need to be understood

Living in Limbo
Where there's no guarantee
Living in Limbo
Ain't no place to be

Hard driving men they test your speed
They push and push and push
Till your body bleeds
The only road open that unlit highway
Tempting your mind in pain
Hard believing your fighting child
The road that kept you sane

Living in Limbo
Where there's no guarantee
Living in Limbo
Ain't no place to be

On your hands and on your knees
It's a struggle to be free

You know your way but are afraid
Living in Limbo
Where there's no guarantee
Living in Limbo
Ain't no place to be

NIGHT SONG

Night has come
Again I think of you
You who long to sing a lovers song
You who shine and never is shined upon
I sing this night song

There is comfort in this night song
Listen and you will find
Comfort in this night song
Night has come

Rest your head
Let my melody receive you
Oh for without you there would be no light
No hope
No stars to wish upon
No nothing
Oh beautiful one
There wouldn't be this night song

There is comfort in this night song
Listen and you will find
Comfort in this night song
Night has come

Night has come again I think of you
You who longs to sing a lovers song
You who shine and never are shined upon
I sing this night song
Oh beautiful one
Find comfort in this
Night song

YOU TAKE MY BREATH AWAY

Fell out of a dream and into my life

There's no time to waste

Will you be my wife

Ooh you take my breath away

Ooh you take my breath away

I love you madly want to keep you for myself

Don't need to see my friends

Or anybody else

Ooh you take my breath away

Ooh you take my breath away

Not once a week

But everyday

Ooh you take my breath away

Ooh you take my breath away

STREETLIFE

Hey you
Hey friend
Have we put you out to pasture once again
You got no home
You got no money
And you know what it's like to be hungry

Success
Your life's a mess
If you could change could you really change
So you take what you can
And in time you hope to understand

Street life put some money in my pocket
Street life put some flesh on my bones
Street life living on the street
Home sweet home

You were taught
And you were fooled
By the things that you learned back at school
They said don't dream
No don't cry
You buy life at a price then you die

Street life put some money in my pocket
Street life put some flesh on my bones
Street life living on the street
Home sweet home

Face in the gutter staring at the stars
And you don't know who or where you are
Or the people with no name that you meet
When you're living on the streets once again

Street life put some money in my pocket
Street life put some flesh on my bones
Street life living on the street
Home sweet home

TALKING ABOUT YOU

Isn't this a strange land
With all its freedom few understand
And those who do call fake news
As they fight for the causes they believe in

I'm talking about us
I'm talking about you
Talking about us
Talking about you

Isn't this a strange land
Isn't this a strange strange land
To protect our freedom we need guns we need guns in our hands
Our country bleeds what went wrong
We're torn apart protecting the constitution

I'm talking about us
I'm talking about you
Talking about us
Talking about you

Isn't this a strange land isn't this a strange land
A strange land of Americans
Doing what we need to do to understand
The things we can in this country
We call the promise land the promise land

I'm talking about us
I'm talking about you
Talking about us
Talking about you

Don't blame the president
Cause him in office is no accident
It's who you chose when the poles closed

I'm talking about us
I'm talking about you

BLUE TURNS TO GREY

She's really gone
Now the pain now the pain sets in
Hard to except you're alone once again
You loved her

Then blue turns to grey
Baby blue
Turns to grey

Lost are the days
When you knew someone cared
As you bless the remains
Of a life once shared you loved her

Then blue turns to grey
Baby blue
Turns to grey

And try as you may there's someone stupid
Getting in your way
Just another stupid cupid
Just another heartbreaker

Blue, blue
Blue turns to grey
Baby blue
Turns to grey
Try as you may
Baby blue turns to grey

COLD NERVOUS NIGHT

Cold nervous night
I long to be under a lover's arm without you haunting me
I hate you
Cold nervous night I hate you
Cold nervous night

Cold nervous night
Strong hands that caress this moment will soon be locked around your neck
In 30 seconds
Nervous night in 30 seconds
Cold nervous night

Cold nervous night
I hope to be sleeping under familiar stars without you haunting me
I hate you
Cold nervous night
Cold nervous night
Let me dream in peace

DIGIBOY

He's ready for the future
Kind of guy who
Likes to push buttons
Always on the move

He's quite a little digi boy
Playing with his digi toys
And you can be the digi girl
For whom he'll build a digi world

Turn on little digi boy
Turn on little digi boy

He's got eyes that sparkle like circuits of gold
And they'll radiate your little digi soul

Turn on little digi boy
Turn on little digi boy

He's the one that's cruising through school
The one they call the digi dancing fool
So get down turn around take your place
And rock your little digi through outer space

Turn on little digi boy
Turn on little digi boy

Once you see him
Once you see him go
Pushing all the buttons
Oh baby then you'll know

He's quite a little digi boy
Playing with his digi toy
And you can be the digi girl
For whom he'll build a digi world

Turn on little digi boy turn on little digi boy
Turn on little digi boy turn on little digi boy

I LIED

Show me all your inhibitions
I will show you mine
Anytime you want my love then
Anytime I find

Hoping for surrender
I was hoping for sometime
Thinking about
All the funny things that happened
I lied

Take me to your inside vision
Deep inside your mind
Anything is hard believin
Even though I try

Hoping for surrender
I was hoping for sometime
Thinking about
All the funny things that happened
I lied

Show me all your inhibitions
Take me to your inner visions

And show me all your insides
Show me all the time
Thinking about
All the funny things that happened
I lied

Hoping for surrender
I was hoping for sometime
Thinking about
All the funny things that happened
I lied

TOMORROW CAN CHANGE TODAY

Tomorrow
Tomorrow can change today
Let the night bring the reasons
For the mornings a chance for yourself
To say you were wrong
To think
There was nobody else

Tomorrow
Tomorrow can change today
And the wanting and dreaming
Will surely take care of itself
Yesterdays gone and now the need
For somebody else

Never to late to change
No never to late for love
Where there's life there's hope
Love will soon come your way
Yes tomorrow
Tomorrow can change today

RUNAWAY TRAIN

You force yourself to pretend
You are nothing but a slave
Every romance you get into
Seems to be your grave

Seems to me that you are running scared
And it seems to me you're never sure
If only you would understand me less
And love me more
Love me more

Runaway
On a runaway train

Headed toward a broken rail
Can't slow down out of control
Reaching out so desperately
To never let you go

Runaway
On a runaway train

Where you can't go back
To cover up your tracks

And trouble lasts a couple days
But life goes on forever praise
All the sadness you may say
Loneliness a holiday

Runaway
On a runaway train
Runaway
On a runaway train
